

# Salanova® Davinci RZ Knox™

Red Butter

## Description

Salanova® Davinci RZ is a unique leaf type due to its attractive multi-coloured butter leaves that offer a sweet, slightly nutty flavour. Salanova® is the name that stands for a range of fresh lettuce each providing hundreds of delicious baby-sized leaves with just one cut and Davinci RZ is one of the first in our red butter leaf types to include the naturally occurring Knox™ trait which helps improve the shelf life by delaying the browning of cut surfaces. A variety that can add an extra dimension to quality salad leaf blends.

## Key features:

- Attractive shiny red with good contrast, easy to harvest
- Suitable for spring to autumn harvest in cool areas, and autumn to spring harvest in warm areas

## Resistances

**HR** Bl:16-37EU/Nr:0

 **KNOX™** Salanova  
butter

## Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan ([www.rijkszwaan.com](http://www.rijkszwaan.com)). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
