Cucumber

Snack & Mini varieties

Snack cucumbers			Spring	Summer	Autumn	Winter
Variety	Organic / NCT	Characteristics	Growing period*			
Quinton RZ F1 (22-714) Resistance: HR: Px IR: -	NCT	High-quality white snack cucumber A white-coloured snack cucumber variety that produces nicely shaped and flavoursome fruits of 9-10 cm in length and 30-60 g weight. Its attractive appearance, combined with the good shelf life, makes this variety very suitable for mixed snack concepts.	N	N	N	N
Quantario RZ F1 (19-SH758) Resistance: HR: Ccu/Px IR: CMV/CVYV	NCT	High quality with resistance against Powdery Mildew Combines an excellent fruit quality with a very nice healthy plant. The high resistance against Powdery Mildew is a big added value. The fruit setting is not too multifruited. In combination with a medium strong and open plant this variety will produce a high number of uniform fruits. Keeps a better fruit colour after storage.	N	N	N	
Mini cucumbers						
Beautysun RZ F1 (22-553) Blue Leaf™ Resistance: HR: Ccu/Px IR: CMV/CVYV/CYSDV/PRSV/ZYMV	Organic	Blueleaf variety with long endurance A mini cucumber variety that produces extra dark green fruits of 15-17 cm in length. The mini cucumbers also have a fine rib and short stem. The plants are compact with an open habit and short side shoots. One of the advantages of the Blueleaf label is that this variety has a strong natural resistance to diseases and pests.	S	S	S	
Bonwell RZ F1 (22-551) Bon Defense™ Resistance: HR: CGMMV/Ccu IR: CMV/CVYV/Px	Organic	Resistant to CGMMV An early mini cucumber variety that produces good-quality fruits of 12-15 cm in length and an average weight of 85-120 grams. They have an attractive dark green colour and a nice shape. The plant has an open habit and is labour-friendly. It's part of the Bon Defense label, meaning it is highly resistant to cucumber green mottle mosaic virus (CGMMV).	S	S	S	
Cretasun RZ F1 (22-563) Blue Leaf™ Resistance: HR: Ccu/Px IR: CMV/CVYV/CYSDV/ZYMV	NCT	Strong crop with Blueleaf A mini cucumber variety that produces good-quality and uniform dark green fruits of 16-18 cm in length. The crop is strong. One of the advantages of the Blueleaf label is that this variety has a strong natural resistance to diseases and pests. The plants have a good winter capacity and a double setting.	S		S	
Khassib RZ F1 (22-75) Resistance: HR: Ccu/Px IR: CMV/CVYV/PRSV/WMV/ZYMV	Organic	Labour-friendly variety with regular production A mini cucumber variety that produces shiny, dark green fruits with an attractive shape and nice rib. The fruit length is 14-16 cm and the shelf life is good. The plant has an open habit with short laterals and small leaves, making it very easy to work with. The crop is balanced with regular production.	N	N	N	

Cucumber

Midi & Slicer varieties

Midi cucumber			Spring	Summer	Autumn	Winter
Variety	Organic / NCT	Characteristics	Growing period*			
Media RZ F1 (22-11) Resistance: HR: Cca/Ccu IR: CMV/CVYV/Px	NCT	High-quality white snack cucumber A midi cucumber that produces uniformed-shaped, dark green fruits with a nice rib and average length of 18 to 22 cm. They have a nice fresh flavour and the shelf life is good. It has an open habit, which makes this variety very labour-friendly, and it produces an early yield.	N	N	N	
Mewa RZ F1 (22-714) Resistance: HR: PxIR: IR: -	NCT	Good in high-wire systems with artificial light A midi cucumber with dark green, nicely ribbed fruits. They have a uniform shape and an average length of 20-22 cm with some neck. The plant is vigorous and single fruited, producing very little abortion and a balanced setting. Performs very well in artificial light.s	N		N	
Slicer cucumber						
Azulan RZ F1 (21-SL969) Blue Leaf™ Resistance: HR: Ccu/Px IR: CMV/CVYV	NCT	Strong fruit setting and high yield A uniform high quality slicer cucumber with a very good yield. The fruits are dark green and medium spined. The plant is generative and the fruit setting is strong. The Blueleaf character of the crops make the plant stronger against diseases.			S	S
Induran RZ F1 (22-960) Blue Leaf™ Resistance: HR: Ccu/Px IR: CMV/CVYV	Organic	Strong crop with Blueleaf A slicer cucumber that produces nicely filled fruits with a green striped end. It has the Blueleaf trait, meaning that this variety has natural resistance to pests and diseases. It is vigorous and is single fruited. Suitable for year-round indoor production in many areas.			S	S
Kyogan RZ F1 (21-SL977) Blue Leaf™ Resistance: HR: Px IR: CMV/CVYV	NCT	Strong root system Very dark fruits. Resistance against powdery mildew. Strong and vigorous plant. Very strong root system			S	S
Modan RZ F1 (22-951) Resistance: HR: Ccu/Px IR: CMV/CVYV	NCT	Long fruits and high yield A slicer cucumber that produces long and slender dark green fruits with a medium number of spines. The plant is vigorous, well-balanced and it creates long side shoots. This variety produces a high yield and is recommended for year-round indoor cultivation.			S	S
Sian RZ F1 (21-966) Blue Leaf™ Resistance: HR: Px IR: CMV/CVYV	NCT	High quality and high yield A slicer cucumber that produces high-quality, dark green, well-filled fruits. These fruits are straight, have a good level of spines and show no yellow at the point. The plant is vigorous and healthy and carries the Blueleaf trait which means that it has natural resistance to pests and diseases. This variety is well-balanced, has good winter capacity and produces a very high yield.			S	S

Cucumber

Long varieties

Long cucumber

Variety	Organic / NCT	Characteristics	Growing period*			
			Spring	Summer	Autumn	Winter
Abysal RZ F1 (24-PT617) Blue Leaf™ Resistance: HR: CGMMV/Cca/Ccu/Px IR: CVYV	NCT	High-yield, open plant and good endurance A high-quality variety of long cucumbers. It produces dark green fruits with attractive ribbing right through to the end of the season. Gives a nice open plant type and is Blue Leaf. The dark green leaves are small and the plant is well-balanced. It is a fast variety with steady generative behaviour and plenty of stamina, resulting in a high yield. It will be very strong against many diseases.			S	S
Addison RZ F1 (24-151) Resistance: HR: Ccu/Px IR: CGMMV/CMV/CVYV	Organic	Generative and strong A high-quality long cucumber which produces uniform, medium-sized fruits with less ribbing than other varieties. The crop is open with strong fruit setting and good vigour, and the plants are strong against burned heads. Used in umbrella crops and often in autumn production cycles on substrate.			N	N
Aramon RZ F1 (724) Blue Leaf™ Resistance: HR: Cca/Ccu/Px IR: -	Organic	Good quality in hot conditions A cucumber variety that produces high-quality long, straight, dark green fruits that are well filled and have an attractive shine. The plants are vigorous with an open growing habit for easy maintenance and harvesting. This variety performs well in soil cultures and has a high resistance to powdery mildew. Strong against burnt heads and is suitable for cultivation in hot summer conditions.			N	
Blueheaven RZ F1 (24-252) Blue Leaf™ Resistance: HR: MMV/Cca/Ccu/Px IR: CMV/CVYV	Organic	Hot summer Blueleaf variety Giving long and high quality cucumbers. The fruits are dark ribbed and well filled. The plant is strong and fruit setting is good. Leaf size is average too small what will keep the crop rather open. Strong against burning heads and can withstand hot summer conditions. Recommend for high wire cultivation and umbrella systems.			N	N
Bluesbrother RZ F1 (24-257) Resistance: HR: CGMMV/Cca/Ccu/Px IR: CMV/CVYV	Organic	Healthy and labour-friendly crop Produces high-quality, longer than average cucumbers. The dark green fruits are well filled and have nice ribbing. Has good vigour and strong fruit setting. The small leaf size results in an open and labour-friendly crop. The plants remain green for longer thanks to the Blueleaf trait. Mostly used in umbrella systems.			N	N
Bluesummer RZ F1 (24-PT613) Blue Leaf™ Resistance: HR: CGMMV/Cca/Ccu/Px IR: CMV/CVYV	Organic	Strong spring & summer variety A long cucumber variety that produces good-quality fruits with a stable fruit length throughout the production cycle. The shelf life is excellent. The crop has good endurance and is well balanced. The plants are very strong and healthy.			S	S

Long cucumber

Variety	Organic / NCT	Characteristics	Growing period*			
			Spring	Summer	Autumn	Winter
Bonnet RZ F1 (24-193) Bon Defense™ Resistance: HR: CGMMV/Ccu/Px IR: CVYV	NCT	Strong and sufficiently generative An all-round variety of long cucumbers for glasshouse cultivation. It produces medium-sized, dark green fruits with good ribbing. The plant has strong vigour and good fruit setting. Performs well in a range of different conditions. It is used as a high-wire variety in winter with artificial light and as an umbrella crop in summer.	N	N	N	
Bonsagan RZ F1 (24-HT025) Blue Leaf™ Resistance: HR: CGMMV/Cca/Ccu/Px IR: CVYV	Organic	Labour friendly and many resistances This variety will produce medium sized fruits. Fruit filling is very nice and the uniformity is excellent. The crop type is very open what will make the variety labour friendly. Excellent uniformity and high quality fruits.		N	N	
Cliff RZ F1 (24-266) Blue Leaf™ Resistance: HR: CGMMV/Cca/Ccu IR: CMV/CVYV/Px	NCT	High quality and good shelf life A long cucumber variety that produces very high-quality dark green fruits of an average size with a very good rib and an attractive round neck. The shelf life is good. The open crop type has strong vigour and is also generative with good fruit setting. It is a Blueleaf variety. This is a spring and early autumn variety.				N
Cumlaude RZ F1 (24-29) Resistance: HR: Ccu/Px IR: -	Organic	All-round cucumery An all-round long cucumber variety that produces quite heavy, dark green and well-ribbed fruits. This variety is vigorous but well-balanced with good fruit setting. Performs best in summer glasshouses, but is also suitable for semi-heated (warm air) and soil crops as well as for organic cultivation.	N	N	N	
Diapason RZ F1 (24-177) Resistance: HR: Cca/Ccu/Px IR: CMV/CVYV	Organic	Strong summer variety A long cucumber variety that produces good-quality fruits with a stable fruit length throughout the production cycle. The shelf life is excellent. The crop has good endurance and is well balanced. The plants are very strong and healthy thanks to the dark leaf colour, the high resistance to powdery mildew and is stronger against cucumber green mottle mosaic virus. Can cope well with extreme summer temperatures and stressful conditions	N	N		
Insula RZ F1 (24-270) Blue Leaf™ Bon Defense™ Resistance: HR: Cca/Ccu/Px IR: CVYV	Organic	A strong healthy crop producing high-quality fruits It produces dark green fruits with attractive ribbing right through to the end of the season. A Blue Leaf variety with good vigour and a wide package of resistances. The dark green leaves do not grow too big and the plant balance remains good. It is a fast variety with steady generative behaviour and good transitional growth. Thanks to plenty of stamina, it produces a high total yield.				S S
Litoral RZ F1 (24-199) Blue Leaf™ Resistance: HR: CGMMV/Ccu/Px IR: CVYV	NCT	High-yielding variety with good endurance A high-quality variety of long cucumbers. It produces dark green fruits with attractive ribbing right through to the end of the season. A Blueleaf variety with good vigour. The dark green leaves do not grow too big and the plant is very well-balanced. It is a fast variety with steady generative behaviour and plenty of stamina, resulting in a high yield.				S S

			Spring	Summer	Autumn	Winter
Maritimo RZ F1 (24-261) Blue Leaf™ Resistance: HR: CGMMV/Cca/Ccu/Px IR: CMV/CVYV	NCT	Combining high-quality fruits with endurance A high-quality variety of long cucumbers. It continues to produce attractively ribbed dark green fruits right through to the end of the season. The dark green leaves do not grow too big and it is a very well-balanced plant. A Blue Leaf variety with good vigour and strong transitional growth. A fast variety with steady generative behaviour and plenty of stamina, resulting in a high yield.			S	S
Pradera RZ F1 (24-178) Blue Leaf™ Resistance: HR: Cca/Ccu/Px IR: CVYV	NCT	High-yielding variety in Spanish summers A long cucumber variety with an average fruit length. It produces uniform, dark green fruits with a good rib throughout the cycle. The shelf life is good. It is a very high-yielding variety that combines good vigour with strong fruit setting, and the transition over the wire is excellent. Strong against burnt heads.	S	S	S	
Proloog RZ F1 (24-148) Resistance: HR: Cca/Ccu IR: Px	Organic	Stable quality and good endurance The standard long cucumber variety for spring cultivation in north-west Europe. Its uniform dark green and nicely ribbed fruits have a stable quality and shelf life. The average fruit size is 400 grams. An open and well-balanced plant type. The leaves are fairly small and the fruit setting is good. It has very good stamina, with the added advantage of intermediate resistance against powdery mildew.	N	N	N	
Valle RZ F1 (24-165) Resistance: HR: Cca/Ccu IR: CVYV/Px	NCT	Real winter variety with good endurance A good-quality long cucumber variety. It produces dark green fruits with attractive ribbing right through to the end of the season. Has strong vigour. It is fast with steady generative behaviour and the plant balance is good. The leaves do not grow too big and the dark green colour helps them to withstand more extreme winter conditions. It has strong stamina and produces a high yield.			S	S

Blue Leaf™

Blue Leaf label

The dark blue-green foliage of the cucumber leaves empowers natural resistance.

Cucumber

Asian varieties

Asian cucumber			Spring	Summer	Autumn	Winter
Variety	Organic / NCT	Characteristics	Growing period*			
Svyatogor RZ F1 (24-916) Resistance: HR: Ccu IR: CVYV/Px	NCT	Good in high-tech systems with artificial light A F1 hybrid Russian-type cucumber and the first to do very well in high-tech, high-wire winter cultivations with artificial light in Russia. The fruits are very uniform, 20 to 22 cm in length and have a dark green shiny skin, covered in warts. The crop is vigorous, well-balanced and regenerates very well.		N	N	
Wokcue RZ F1 (27-103) Resistance: HR: CMV/CVYV/Cca IR: ZYMV/Px	NCT	Chinese-type cucumber for high-tech cultivation A Chinese-type cucumber that produces straight, dark green spined fruits with a small cavity. It has a sweet flavour and the flesh is quite dry as it has a much higher dry matter content than long English cucumbers. This makes it excellent for wok dishes and Chinese salads and a nice addition in the Western cucumber assortment. The crop is female flowering and single fruited. This is the first Chinese type that is suitable for high-tech greenhouse cultivation.		N	N
