

Insula RZ

Continental

Blueleaf® is a trait that distinguishes some of Rijk Zwaan's cucumber varieties. This trait helps keep crops healthy through a combination of characteristics.

Description

Robust and adaptable varieties are the key to harvest security, and newcomer Insula RZ delivers in full. Focused on harvesting in shoulder and winter crops, performance has been promising in almost all regions and seasons. Plants are vigorous with smaller leaves and an open and balanced plant habit, and has high production levels of excellent quality fruit that are long and heavy. As a **Blueleaf®** variety, Insula RZ has a broad disease resistance package, including high level of resistance to CGMMV and Powdery Mildew.

Key features:

- Versatile and robust variety with high yields of long and heavy fruit
- **Blueleaf®** variety with excellent vigour and resistance package
- Suitable for year round production in most areas

Resistances

HR CGMMV/Cca/Ccu/Px (ex Sf)

IR CMV/CVVV/CYSDV

Sharing a healthy future

Rijk Zwaan's descriptions, illustrations, growing advices and any other information in whatever form for example on expiry, sowing, planting and harvesting dates are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan does not accept in any case liability for damages resulting from the use of such descriptions, illustrations, growing advices and information. The buyer/user itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. Inclusion of a variety in this edition does not automatically imply that such a variety is available for purposes of exploitation; it might be available for testing only. For more information, please contact Rijk Zwaan (www.rijkszwaan.com). The pictures in this edition show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.
