

# Ymer RZ

## Berlicum/Nantes Carrot

### Ymer RZ F1 (55-414)

**Type:** Mid-Early Hybrid Berlicum/Nantes

**Market:** Fresh Market and Long-Term Storage

Ymer RZ is a mid-early hybrid multipurpose Berlicum/Nantes carrot with a cylindrical shape and smooth skin that can change to conical shape under flat cultivation. Ymer RZ is very uniform in both length and diameter with intense orange color and strong, dark green foliage. The average growing period is 130 days with an average length of 18-20 cm.

Ymer RZ produces excellent results in regions with light to medium-heavy soil.
