

Teenleaf™

The tasty, forkable salad solution

Teenleaf™ lettuce is the efficient salad solution for the fresh-cut market.

A range of leafy green varieties that are mechanically harvestable and suitable for both open-field and high-tech hydroponic cultivation. By growing on a high density and mechanically

harvesting at a later stage than true baby leaf, Teenleaf results in higher yields, stronger and more colourful leaves, baby sized and forkable for the consumer.

- High production
- Low labour
- Wide range of leaves in colour, shape & flavour
- Improved shelf life performances
- Small cut surface, lower waste %

Teenleaf™ Blends

Teenleaf® Lettuce is available in all conceivable colours, textures and leaf shapes: green, red, crispy, soft, frilly and round. Making it possible to grow and mix the main three fresh cut category salad blends: Sweet & Crunchy, Mild & Colourful and Bold & Delicate leaves, baby sized and forkable for the consumer.

Sweet & Crunchy
all about juicy, crunchy greens

Mild & Tender
all about attractive, colourful mixes

Bold & Delicate
all about bold strong flavours & delicate leaves
